

Department of Health

**HIV/AIDS HEPATITIS AND TUBERCULOSIS
ADMINISTRATION**

What is HAHSTA

- HAHSTA's mission is to reduce the HIV/AIDS, Hepatitis, STD, and TB-related morbidity and mortality in the District
- Four specific goals to achieve mission:
 - Reduce new infections of HIV, Hepatitis STD, and TB
 - Improve access to care and health outcomes for individuals with HIV, Hepatitis, STD and/or TB
 - Reduce HIV, Hepatitis, STD, and/or TB disparities and health inequities
 - Achieve a More Coordinated Response to the HIV, STD, TB and Hepatitis Syndemic

Operation

- HAHSTA is currently divided into four distinct program bureaus that tackle a specific aspect of the mission:
- Strategic Information Bureau
- Care bureau
- Prevention bureau
- Tuberculosis and Hepatitis bureau

Partnerships

- Much like other jurisdictions our goals are achieved by establishing partnership with community organizations and providing sub-grants to advance specific program objectives that are informed by our research and priorities.
- Our budget is about 80 million
- Approximately 60% is used on sub-grants

Upcoming opportunities

- **STD Clinical Services**
- **Purpose:** Reduce the transmission of sexually transmitted diseases (STDs) through enhancing the availability, and improving the quality, of STD clinical services for men who have sex with men (MSM) during non-traditional work hours (i.e., evenings and/or weekends) focusing on the screening, diagnosis, treatment, follow up, and reporting of infectious syphilis, chlamydia, gonorrhea, and HIV.
