FR-800M/Q/A Upload Instructions

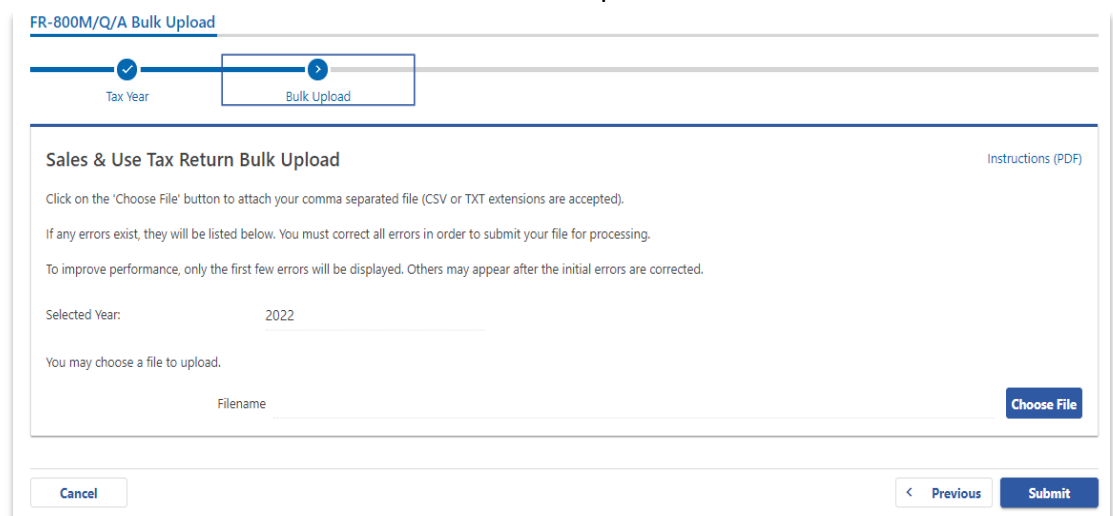

1. When you have access, select Bulk FR-800M/Q/A File in the Bulk Processing block.

2. At the Bulk Upload page, select the Tax Year for which you are bulk filing. **Please make sure to select the correct form type, year and period.**

3. Use the Choose File button to select a file to upload.

4. If errors are reported, you must remove the file and upload a corrected file.

The screenshot shows the 'Sales & Use Tax Return Bulk Upload' interface. At the top, there is a progress bar with two steps: 'Tax Year' (completed) and 'Bulk Upload' (current). Below the progress bar, the title 'Sales & Use Tax Return Bulk Upload' is displayed, along with an 'Instructions (PDF)' link. The main content area contains instructions: 'Click on the 'Choose File' button to attach your comma separated file (CSV or TXT extensions are accepted). If any errors exist, they will be listed below. You must correct all errors in order to submit your file for processing. To improve performance, only the first few errors will be displayed. Others may appear after the initial errors are corrected.' A red error message states: 'Errors detected during validation, correct file and re-upload'. Below this, the 'Selected Year' is set to '2021'. The 'Filename' is 'FR800 2021 BulkTest.csv' and the 'File Size (KB)' is '1'. There are 'Choose File' and 'Remove File' buttons. At the bottom, there is a table with error messages:

Line	Legal Name	Field	Message
1	Record Error	N/A	Invalid number of fields to process this return
2	Record Error	N/A	Invalid number of fields to process this return

At the bottom of the interface, there are 'Cancel', 'Previous', and 'Submit' buttons.

File Status

ACCEPTED - File has passed all quality checks and an email will be sent to the submitter that displays "Pending".

REJECTED - File did not pass quality checks. All errors will be displayed after clicking the submit button and front-end validations occur. The file should be corrected and re-submitted for processing.

COMPLETED – Processed submissions denoting the bulk submission has been processed. There is no return level completion, just that the file was processed.

File re-submission for rejected files

After front-end validation, errors will be displayed to the submitter. A single error WILL reject the entire file. The submitter may remove the record or correct the record and re-submit. We are only accepting valid format bulk submissions.
