Instructions

### Qualifications for the Homestead Deduction

The Homestead Deduction reduces your real property's assessed value by \$75,700 prior to computing the yearly tax liability, lowering the tax liability due.

To qualify for the Homestead Deduction, you must be domiciled in the District of Columbia and the property for which you are applying must be your principal residence.

To establish District domicile, the District must be your permanent home. Actions which you should take to establish domicile include obtaining a District driver's license/identification card, registering your vehicle in the District, and registering and actively voting in the District. You should also file District and Federal income tax returns from this residence.

You do **not** qualify for the Homestead Deduction if:

- You are already receiving the Homestead Deduction for another property that you own. If you move to a new home, you must submit the FP-105: Cancellation of Homestead Deduction application, which can be found on the MyTax.DC website.
- The property for which you are applying is held in an irrevocable trust (except a special needs trust).
- The property record owner is a corporation, LLC or other business entity (except a Partnership in which all Partners occupy the property as their principal residence).

In addition to the Homestead Deduction, qualifying applicants may also be eligible for either Senior Citizen or Disabled Tax Relief. Applicants seeking to apply for these additional benefits must include with this application the Federal Adjusted Gross Income (FAGI) of themselves and all co-owners or residents (not paying rent under a written lease) of the property. More details and qualifications for the Senior Citizen and Disabled Tax Relief programs can be found on the next step of the application.
